Dear colleagues,

ASMET is pleased to invite you to join GALVATECH 2020 in Vienna.

The International Conference on Zinc and Zinc Alloy Coated Steel Sheet (Galvatech) is the premier international conference on cutting-edge technologies for the processing and performance of coated steel sheets for automotive, electrical appliance and construction applications.

Galvatech was born in 1989 in Tokyo as the first conference in a series, and has been held every three or two years since then.

The venue of the GALVATECH 2020 will be Schönbrunn Palace in Vienna, easy to reach by public transportation from Vienna Airport and Vienna Train Main Station.

The Schönbrunn Palace in its present form was built and remodelled during the 1740-50s during the reign of empress Maria Theresa who received the estate as a wedding gift.

Today Schönbrunn is Vienna's most popular tourist destination, the whole Schönbrunn complex includes the Tiergarten Schönbrunn (zoo), Palmenhaus, Wüstenhaus, the Wagenburg and, of course, the palace.

**We are looking forward to welcome you in Vienna at GALVATECH 2020!**

## FACTS ABOUT AUSTRIA & VIENNA

### Population:

Austria 8,7 million people

Vienna 1,8 million people

With an area of 83.858sq km Austria consists of 9 independent federal provinces (Burgenland, Carinthia, Lower Austria, Salzburg, Styria, Tyrol, Upper Austria, Vienna and Vorarlberg)

Austria is famous for its castles, different types of music (classical music, folk music, yodelling, Austropop) and for its special desserts and sweets like Sacher Torte, Salzburger Nockerl oder Mozartkugeln.

### Climate

Austria is located in a temperate climatic zone with a Central European climate influenced by the Atlantic climate.

### Sundays

Note that Austria is a majority Catholic country and that Sundays are observed as holidays. Most shops and some attractions will be closed.

Some great „sons & daughters“ of Austria:

Sigmund Freud, Bertha von Suttner, Gustav Klimt, Wolfgang Amadeus Mozart, Johann Strauß, Romy Schneider, Falco, Marcel Hirscher, ....

Vienna is the most livable city on our planet according to the Economist Intelligence Unit's study ranking 30 factors, ranging from safety and education to infrastructure and healthcare.

It is famous for the St. Stephen's Cathedrale (with the bell called „Pummerin“), the Fiaker (horse carriages), Schönbrunn Palace (the imperial home of Franz and Elisabeth „Sissi“) and for the orchestra „Wiener Philharmoniker“ and the New Years Concert and of course for the Sacher Torte.
